Outreach Initiatives completed during period:

Stations participated in the Career and Job Expo event on May 7, 2014 and supplied information regarding employment in the broadcast industry as well as information about employment availabilities within Station. Station Personnel involved were Robbie Rush and Dana Mobley.

Stations provide a “Jobs Available” link on their website at www.klamathradio.com to inform prospective employees of all jobs available at the station as well as open periods to submit resumes for future job openings.

Stations broadcast job opening “help wanted” ads on air on all six stations.

Stations have an informal intern program available to local High Schools and the local college. Stations currently have an intern in the program.

Stations conduct tours of our broadcasting facilities for various local groups and organizations to encourage an interest in broadcasting and a future in broadcast employment.
